***Claim Rejections - 35 USC § 103***

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 2871

***Response to Arguments***

6. Applicant's arguments filed 11/18/2002 have been fully considered but they are not persuasive.

Regarding claims 1, 9, 19 and 21, the amendment found throughout the claims has the purpose of inserting the limitation of "the pixel array, driver and control unit are formed simultaneously" (emphasis added) which recites a one-step process which does not further limit the structure of the claimed. As noted during telephone interview, the Examiner agreed that the term "formed" would be given patentable weight in method claims; however, such above claims draw to a liquid crystal display system (i.e., device claim). It should be noted that the method of forming the device is not germane to the issue of patentability of the device itself. Therefore, this limitation has not been given patentable weight.

Accordingly, the rejection of claims 1-26 stand.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2871

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
